

As Scientists we will be planning and carrying out investigations and learning about electricity.

As Computing Technicians we will be developing our programming skills and our understanding of internet safety.

As Musicians we will be singing, learning about the tempo of songs and developing our understanding of percussion.

As artists we will continue to develop an understanding of drawing techniques and we will learn about different sculptures.

As Designers we will be researching different slider and lever mechanisms and creating our own.

As Geographers we will be investigating the countries, capital cities, mountains and rivers of the UK.

As Historians we will be learning about different historical figures such as Queen Victoria, Tim Burners-Lee and Queen Elizabeth II.

In RE we will be developing an understanding of Christianity and learning about churches.

**Class 2
Autumn
Past and Present**

Curriculum Drivers

Ambition and Possibilities

We will explore NED further and look at ways to help us to persevere.

Life-skills and Enterprise

We will develop our own lines of Scientific and Historical enquiry, building upon our interests and exploring our questions.

Knowledge and Understanding of the World

We will explore local, national and international festivals and events linked to our topic. We will develop our understanding during Black History Month about Mary Seacole.
