

As Scientists we will be exploring everyday materials and how suitable they are.

As Computing Technicians we will be using different software packages to program directions.

As Musicians we will be singing, learning about tempo and playing instruments.

As artists we will be creating collages using different textiles.

As Designers we will investigate different structures, what materials they are made from and how suitable they are.

**Class 2
Autumn
Fire! Fire!**

Curriculum Drivers

As Geographers we will be investigating the local area and carrying out fieldwork skills.

As Historians we will be investigating the great fire of London, in particular the houses.

In RE we will be developing an understanding of worship practices of Judaism.

Ambition and Possibilities

We will explore NED further and look at ways to help us to persevere.

Life-skills and Enterprise

We will develop our own lines of Scientific and Historical enquiry, building upon our interests and exploring our questions.

Knowledge and Understanding of the World

We will explore local, national and international festivals and events linked to our topic
