

Electronic Devices: Searching and Deletion Policy

Introduction

The changing face of information technologies and ever increasing pupil use of these technologies has meant that the Education Acts have had to change in an attempt to keep pace. Within Part 2 of the Education Act 2011 (Discipline) there have been changes to the powers afforded to schools by statute to search pupils in order to maintain discipline and ensure safety. Schools are required to ensure they have updated policies which take these changes into account. No such policy can on its own guarantee that the school will not face legal challenge, but having a robust policy which takes account of the Act and applying it in practice will however help to provide the school with justification for what it does.

The particular changes we deal with here are the added power to search for items 'banned under the school rules' and the power to 'delete data' stored on seized electronic devices.

Items banned under the school rules are determined and publicised by the Headteacher (section 89 Education and Inspections Act 1996).

An item banned by the school rules may only be searched for under these new powers if it has been identified in the school rules as an item that can be searched for. It is therefore important that there is a school policy which sets out clearly and unambiguously the items which:

- ◆ are banned under the school rules; and*
- ◆ are banned AND can be searched for by authorised school staff*

The new act allows authorised persons to examine data on electronic devices if they think there is a good reason to do so. In determining a 'good reason' to examine or erase the data or files the authorised staff member must reasonably suspect that the data or file on the device in question has been, or could be, used to cause harm, to disrupt teaching or could break the school rules.

Following an examination, if the person has decided to return the device to the owner, or to retain or dispose of it, they may erase any data or files, if they think there is a good reason to do so.

DfE advice on these sections of the Education Act 2011 can be found in the document: 'Screening, searching and confiscation – Advice for head teachers, staff and governing bodies'

<http://www.education.gov.uk/schools/pupilsupport/behaviour/behaviourpolicies/f0076897/screening-searching-and-confiscation>

It is recommended that Headteachers (and, at the least, other senior leaders) should be familiar with this guidance.

Relevant legislation:

- *Education Act 1996*
- *Education and Inspections Act 2006*
- *Education Act 2011 Part 2 (Discipline)*
- *The School Behaviour (Determination and Publicising of Measures in Academies) Regulations 2012*
- *Health and Safety at Work etc. Act 1974*
- *Obscene Publications Act 1959*
- *Children Act 1989*
- *Human Rights Act 1998*
- *Computer Misuse Act 1990*

This is not a full list of Acts involved in the formation of this advice. Further information about relevant legislation can be found via the above link to the DfE advice document.

Responsibilities

The Headteacher is responsible for ensuring that the school policies reflect the requirements contained within the relevant legislation. The policies are taken to Governors for approval. The Headteacher will need to authorise those staff who are allowed to carry out searches.

This policy has been written by Ms G Davison and will be reviewed by the Governing Body of Laurel Avenue Community Primary School.

The Headteacher has authorised the following members of staff to carry out searches for and of electronic devices and the deletion of data/files on those devices:

Ms G Davison, Headteacher

Mrs H Walters, Deputy Headteacher

The Headteacher may authorise other staff members in writing in advance of any search they may undertake, subject to appropriate training.

Training/ Awareness

It is essential that all staff should be made aware of and should implement the school's policy.

Members of staff should be made aware of the school's policy on 'Electronic devices, searching and deletion':

- ◆ *at induction*
- ◆ *at regular updating sessions on the school's e-safety policy*

Members of staff authorised by the Headteacher to carry out searches for and of electronic devices and to access and delete data/files from those devices should receive training that is specific and relevant to this role.

Specific training is required for those staff who may need to judge whether material that is accessed is inappropriate or illegal.

Policy Statements

Search:

The School Behaviour Policy refers to the policy regarding searches with and without consent for the wide range of items covered within the Education Act 2011 and lists those items. This policy refers only to the searching for and of electronic devices and the deletion of data/files on those devices.

Pupils are not allowed to bring mobile phones or other personal electronic devices to school or use them in the school, unless a special request has been made by parent/carer.

If pupils breach these rules, the sanctions for breaking these rules can be found in the Behaviour Policy and Online Safety Policy.

Authorised staff (defined in the responsibilities section above) have the right to search for such electronic devices where they reasonably suspect that the data or file on the device in question has been, or could be, used to cause harm, to disrupt teaching or break the school rules:

- ◆ *Searching with consent - Authorised staff may search with the pupil's consent for any item.*
- ◆ *Searching without consent - Authorised staff may only search without the pupil's consent for anything which is either 'prohibited' (as defined in Section 550AA of the Education Act 1996) or appears in the school rules as an item which is banned and may be searched for.*

In carrying out the search:

The authorised member of staff must have reasonable grounds for suspecting that a pupil is in possession of a prohibited item i.e. an item banned by the school rules and which can be searched for.

*The authorised member of staff carrying out the search must have a witness (also a staff member). Authorised staff can carry out a search of a pupil of the opposite gender including without a witness present, but **only where you reasonably believe that there is a risk that serious harm will be caused to a person if you do not conduct the search immediately and where it is not reasonably practicable to summon another member of staff.***

Extent of the search:

The person conducting the search may not require the pupil to remove any clothing other than outer clothing.

Outer clothing means clothing that is not worn next to the skin or immediately over a garment that is being worn as underwear (outer clothing includes hats; shoes; boots; coat; blazer; jacket; gloves and scarves).

'Possessions' means any goods over which the pupil has or appears to have control – this includes desks and bags.

A pupil's possessions can only be searched in the presence of the pupil and another member of staff, except where there is a risk that serious harm will be caused to a person if the search is not conducted immediately and where it is not reasonably practicable to summon another member of staff.

The power to search without consent enables a personal search, involving removal of outer clothing and searching of pockets; but not an intimate search going further than that, which only a person with more extensive powers (e.g. a police officer) can do.

Use of Force – force cannot be used to search without consent for items banned under the school rules regardless of whether the rules say an item can be searched for.

Electronic devices

An authorised member of staff finding an electronic device may access and examine any data or files on the device if they think there is a good reason to do so (i.e. the staff member must reasonably suspect that the data or file on the device in question has been, or could be, used to cause harm, to disrupt teaching or break the school rules).

The examination of the data/files on the device should go only as far as is reasonably necessary to establish the facts of the incident. Any further intrusive examination of personal data may leave the school open to legal challenge.

If inappropriate material is found on the device it is up to the authorised member of staff to decide whether they should delete that material, retain it as evidence (of a criminal offence or a breach of school discipline) or whether the material is of such seriousness that it requires the involvement of the police.

Examples of illegal activity would include:

- ◆ *child sexual abuse images (including images of one child held by another child)*
- ◆ *adult material which potentially breaches the Obscene Publications Act*
- ◆ *criminally racist material*
- ◆ *other criminal conduct, activity or materials*

Deletion of Data

Following an examination of an electronic device, if the authorised member of staff has decided to return the device to the owner, or to retain or dispose of it, they may erase any data or files, if they think there is a good reason to do so. (i.e. the staff member must reasonably suspect that the data or file on the device in question has been, or could be, used to cause harm, to disrupt teaching or break the school rules).

If inappropriate material is found on the device, it is up to the authorised member of staff to decide whether they should delete that material, retain it as evidence (of a possible criminal offence or a breach of school discipline) or whether the material is of such seriousness that it requires the involvement of the police

A record should be kept of the reasons for the deletion of data/files.

Audit/Monitoring/Reporting/Review

The responsible person (Headteacher) will ensure that full records are kept of incidents involving the searching for and of mobile phones and electronic devices and the deletion of data/files.

These records will be reviewed by (Online Safety Officer/Online Safety Group/Online Safety Governor) at regular intervals; once a term.
