

As Scientists we will be exploring the Earth and Space; looking at how the Earth, Sun and Moon are connected. We will also look at gravity and balanced forces.

As Computing Technicians we will continue to develop coding skills using Scratch and will use digital technologies to produce geographical reports and tourism adverts.

As artists we will explore artworks from futurist and surrealist artists.

As Designers we will use electrical and mechanical understanding to create moving solar systems using CAMS.

As Geographers we will be investigating North America and Alaska. We will use information sources to find out about human impact on the landscapes and environments.

As Historians we will find out about explorations of discovery over the past 1 000 years and the impact they have had on our society today.

In RE we will consider what Christians believe about God..

Class 4 Our Planet

Curriculum Drivers

Ambition and Possibilities

We will explore NED further and look at a variety of jobs connected to our topics. We will work as a team to produce moving models.

Life-skills and Enterprise

We will plan our own lines of scientific, geographical and historical enquiry and use knowledge plan and present information.

Knowledge and Understanding of the World

We will explore local, national and international news events and festivals linked to our topic. Through our topics we will research key discoveries and breakthroughs in periods of history and changes to significant areas of the world.
